

ACTING BEYOND THE SURFACE

WHAT IS DECLARE?

Declare is the “nutrition label for products.” It’s the only label that combines material transparency and the Red List from the Living Building Challenge. It distills complex chemical ingredient information into an easy-to-read label that is unique to Wilsonart® HPL and Compact Laminate. Declare helps you find and specify Red List-approved Wilsonart solutions that are healthy for people, the environment, and communities.

LIVING BUILDING CHALLENGE CRITERIA:

“LBC Red List Approved” products meet the written requirements of the Living Building Challenge Red List Imperative, but rely on one or more Declare Program Exceptions to demonstrate compliance. A minimum of 99% of product ingredients plus residuals present at or above 100 ppm (0.01%) in the final product are disclosed. The product may contain one or more Red List chemicals if they fall under an existing, published Declare Program Exception. They have been shown to meet the requirements of the Living Building Challenge Red List.

BENEFITS:

- Quickly evaluate the healthiest surface choice for your next project.
- Contribute to Living Building Challenge, LEED, and WELL projects.
- Simplify the specification process with sustainability information for the exact Wilsonart® HPL and Compact Laminate surface you need.
