**SECTION 1: Identification of the substance/mixture and of the company/undertaking**

1.1. **Product identifier**
   - **Product name**: Composite Panel
   - **Product form**: Panel with bonded HPL to substrate

1.2. **Relevant identified uses of the substance or mixture and uses advised against**
   - **Use of the substance/mixture**: Moisture resistant laminate panels

1.3. **Details of the supplier of the safety data sheet**
   - Wilsonart LLC
   - P.O. Box 6110
   - Temple, TX 76503-6110
   - Information phone: 800-433-3222 (USA)
   - In Case of Emergency Contact CHEMTREC (International): 703-527-3887

1.4. **Emergency telephone number**
   - Emergency number: CHEMTREC: (800) 424-9300

**SECTION 2: Hazards identification**

2.1. **Classification of the substance or mixture**
   - **GHS-US classification**: None

2.2. **Label elements**
   - **GHS-US labelling**: None

2.3. **Other hazards**
   - No additional information available

2.4. **Unknown acute toxicity (GHS-US)**
   - No data available

**SECTION 3: Composition/information on ingredients**

3.1. **Substance**
   - Not applicable

3.2. **Mixture**

*In accordance with paragraph (i) of the OSHA Hazard Communication Standard (29 CFR §1910.1200), the specific chemical identity or exact weight % has been withheld as a trade secret.*

**SECTION 4: First aid measures**

4.1. **Description of first aid measures**

   **First-aid measures general**: If exposed or concerned, get medical attention/advice. Show this safety data sheet to the doctor in attendance. Wash contaminated clothing before re-use. Never give anything to an unconscious person.

   **First-aid measures after inhalation**: IF INHALED: Remove to fresh air and keep at rest in a position comfortable for breathing. Get medical attention if breathing is affected. If breathing is difficult, supply oxygen.

   **First-aid measures after skin contact**: IF ON SKIN (or clothing): Remove affected clothing and wash exposed skin with soap and water. If irritation persists, seek medical attention.

   **First-aid measures after eye contact**: IF IN EYES: Immediately flush with plenty of water for at least 15 minutes. Remove contact lenses if present and easy to do so. If pain, blinking, or irritation develops or persists, get medical attention. Continue rinsing.
First-aid measures after ingestion: IF SWALLOWED: rinse mouth thoroughly. Do not induce vomiting without advice from poison control center or medical professional. Get medical attention if you feel unwell.

4.2. Most important symptoms and effects, both acute and delayed
Symptoms/injuries: None expected with normal handling. Fabrication dust may cause an allergic reactions or irritation.
Symptoms/injuries after inhalation: Fabrication dust may cause respiratory irritation.
Symptoms/injuries after skin contact: Fabrication dust may cause skin irritation.
Symptoms/injuries after eye contact: Fabrication dust may be irritating.
Symptoms/injuries after ingestion: Fabrication dust, if swallowed, may cause gastrointestinal irritation.

4.3. Indication of any immediate medical attention and special treatment needed
No additional information available.

SECTION 5: Firefighting measures
5.1. Extinguishing media

5.2. Special hazards arising from the substance or mixture
Fire hazard: Not flammable under normal conditions of use. Will burn if exposed to fire.
Explosion hazard: Product is not explosive.
Reactivity: No dangerous reactions known under normal conditions of use.

5.3. Advice for firefighters
Precautionary measures fire: Keep away from open flames and other ignition sources.
Protection during firefighting: Use fire protection equipment appropriate for surrounding fire. Foam.

SECTION 6: Accidental release measures
6.1. Personal precautions, protective equipment and emergency procedures
General measures: Ventilate area.

6.1.1. For non-emergency personnel
Protective equipment: None needed for normal usage. Wear Protective equipment for dust for fabrication.
Emergency procedures: None under normal usage. Evacuate unnecessary personnel if emergency situation

6.1.2. For emergency responders
Protective equipment: Wear suitable protective clothing, gloves, and eye or face protection for surrounding materials.

6.2. Environmental precautions
Prevent entry to sewers and public waters. Notify authorities if liquid enters sewers or public waters. Avoid release to the environment.

6.3. Methods and material for containment and cleaning up
For containment: None needed for normal usage. Dispose of fabrication dust according to local regulations.
Methods for cleaning up: Dispose of product and fabrication dust according to local regulations.

6.4. Reference to other sections
See Sections 8 and 13.

SECTION 7: Handling and storage
7.1. Precautions for safe handling
Precautions for safe handling: None needed under normal usage.

7.2. Conditions for safe storage, including any incompatibilities
Storage conditions: Store in a dry, cool and well-ventilated place.

SECTION 8: Exposure controls/personal protection
8.1. Control parameters
Material Name: Fabrication Dust
OSHA PEL: TWA 5 mg/m3 (repirable); TWA 15 mg/m3 (total)
8.2. Exposure controls

Appropriate engineering controls: None needed under normal usage. Provide adequate general and local exhaust ventilation or other engineering controls to control airborne dust levels during fabrication. Recommended that all dust control equipment such as local exhaust ventilation and material transport systems involved in handling the dust particulate of the product contain explosion relief vents of explosion suppression system.

Personal protective equipment: Wear eye protection, gloves, and long sleeves to protect from skin exposure during fabrication processes.

Hand protection: Use gloves chemically resistant to this material when prolonged or repeated contact could occur during fabrication processes. Gloves should be classified under Standard EN 374 or ASTM F1296. Suitable gloves for this specific application can be recommended by the glove supplier.

Eye protection: Wear eye protection during fabrication processes.

Skin and body protection: Wear long sleeves during fabrication.

Respiratory protection: Where dust exceed PELs or other applicable OELs during fabrication, use NIOSH-approved respiratory equipment.

SECTION 9: Physical and chemical properties

9.1. Information on basic physical and chemical properties

Physical state: Solid
Color: Various
Odor: Odorless.
Odor Threshold: No data available
pH: No data available
Relative evaporation rate (butylacetate=1): No data available
Melting point: No data available
Freezing point: No data available
Boiling point: Not applicable
Flash point: Not applicable
Auto-ignition temperature: No data available
Decomposition temperature: No data available
Flammability (solid, gas): Not flammable
Vapour pressure: No data available
Relative vapour density at 20 °C: No data available
Relative density: No data available
Solubility: Not soluble
Log Pow: No data available
Log Kow: No data available
Viscosity, kinematic: No data available
Viscosity, dynamic: No data available
Explosive properties: No data available
Oxidising properties: No data available
Explosive limits: No data available

9.2. Other information

VOC content: Not applicable, solid product

SECTION 10: Stability and reactivity

10.1. Reactivity
No dangerous reactions known under normal conditions of use.

10.2. Chemical stability
Stable under recommended handling and storage conditions (see section 7).

10.3. Possibility of hazardous reactions
None known.
10.4. Conditions to avoid
None known

10.5. Incompatible materials
None known

10.6. Hazardous decomposition products
Carbon oxides (CO, CO₂) and hydrochloric acid (HCl).

SECTION 11: Toxicological information

11.1. Information on toxicological effects

Acute toxicity: Not classified
Skin corrosion/irritation: Not classified
Serious eye damage/irritation: Not classified
Respiratory or skin sensitisation: May cause an allergic skin reaction.
Germ cell mutagenicity: Not classified
Carcinogenicity: Not classified
Reproductive toxicity: Not classified
Specific target organ toxicity (single exposure): Not classified
Specific target organ toxicity (repeated exposure): Not classified
Aspiration hazard: Not classified
Symptoms/injuries after inhalation: May cause respiratory irritation.
Symptoms/injuries after skin contact: May cause an allergic skin reaction.
Symptoms/injuries after eye contact: Direct contact with the eyes is likely to be irritating.
Symptoms/injuries after ingestion: May cause gastrointestinal irritation.

SECTION 12: Ecological information

12.1. Toxicity

Wetwall Panel
Not expected to be toxic

Wetwall Panel Adhesive
Persistence and degradability: No information available.

12.2. Persistence and degradability

Wetwall Panel Adhesive
Persistence and degradability: No information available.

12.3. Bioaccumulative potential

Wetwall Panel Adhesive
Bioaccumulative potential: No information available.

12.4. Mobility in soil

Wetwall Panel Adhesive
Ecology – soil, not expected to be exotoxic: No information available.

12.5. Other adverse effects

Other adverse effects: No data available.

SECTION 13: Disposal considerations

13.1. Waste treatment methods

Waste treatment methods: Obtain the consent of pollution control authorities before discharging to wastewater treatment plants.
Waste disposal recommendations: Dispose in a safe manner in accordance with local/national regulations. Do not allow the product to be released into the environment.

SECTION 14: Transport information

In accordance with DOT
Not hazardous for transport

Additional information
Other information: No supplementary information available.

Transport by sea
No additional information available
Wetwall Water-Proof Wall Panel
Safety Data Sheet
Prepared according to Federal Register / Vol. 77, No. 58 / Monday, March 26, 2012 / Rules and Regulations

Air transport
No additional information available

SECTION 15: Regulatory information

15.1. US Federal regulations

Wetwall Panel Adhesive
All components of this product are listed on the TSCA Inventory or are exempt

15.2. International regulations
No additional information available.

15.3. US State regulations
No additional information available.

SECTION 16: Other information

Indication of changes : Revision NEW
Revision date : 09/05/2019
Other information : Author: EWK.

NFPA health hazard : 0 – Exposure may cause irritation and/or minor injury.
NFPA fire hazard : 1 – Dry adhesive may burn.
NFPA reactivity : 0 - Normally stable, even under fire exposure conditions, and are not reactive with water.

HMIS III Rating

Health : 0
Flammability : 0
Physical : 0
Personal Protection :

This information is based on our current knowledge and is intended to describe the product for the purposes of health, safety and environmental requirements only. It should not therefore be construed as guaranteeing any specific property of the product.
